PROJECTS

BrainHaven - Open Knowledge & Collaboration Hub   Feb 2025

⬤ **https://t.me/brainhaven**   🌐 **https://brainhaven.in/**

BrainHaven is a comprehensive platform designed for learners, developers, and tech enthusiasts. It provides a vast collection of learning resources, coding snippets, structured roadmaps, and the latest hackathon updates. With HackMate, users can collaborate, form teams, and engage in real-time discussions, making BrainHaven a go-to hub for knowledge sharing and networking.

InfiniChat - Multi-API AI Platform   Sep 2024

⬤ **https://github.com/divyanshgoyal777/InfiniChat**   🌐 **https://infinichats.netlify.app**

It offers users a range of features, including AI chat, image search, GIF search, and text-to-image generation. InfiniChat provides a seamless, modern interface styled with Tailwind CSS, ensuring a smooth experience across devices.

WriteNest - A Blogging Platform   July 2024

⬤ **https://github.com/divyanshgoyal777/WriteNest**   🌐 **https://writenest.netlify.app**

A modern, feature-rich blogging platform built on the MERN stack. Designed for simplicity and elegance, WriteNest allows users to write, edit, and publish their blogs with ease. It boasts a sleek, responsive interface styled with Tailwind CSS, offering an enjoyable experience for both writers and readers.

YouTubis - YouTube Clone   Jun 2024

⬤ **https://github.com/divyanshgoyal777/YouTubis-YouTube-Clone-**   🌐 **https://youtubis.netlify.app**

Developed a full-stack application replicating YouTube functionalities, including user authentication with Auth0, video playback, and search. Integrated a feedback form to collect user input. The project demonstrates skills in building responsive, dynamic web applications with modern development tools and frameworks.

EDUCATION

Diploma in Computer Science
Guru Nanak Dev DSEU Campus
2023 - 2026

10th
Government Boys Senior Secondary School
2023

ACHIEVEMENTS

HackMAIT 5.0
Participated in HackMAIT organised by IOSD-MAIT
Certificate
